A Description of the EXHIBITS TO BE USED AS EVIDENCE

1. **Exhibit (A)** Shows Robert Motyer's signature on the drafting of the Last Will s and Testament of John Augustus Alexander Virgil where he was to protect the wishes of Augustus Virgil and provide legal advice to Virgil in connection with the drafting of the Will. Further, Virgil appointed Bank of Butterfield Executor and Trustee Co. Ltd as the Sole Executor.
2. **Exhibit (B)** In Appleby's prepared report for Butterfield in 1978 it used the strength of John Alfred Virgil's deeds the imposter as we still have in our possession the original title deeds from 1885 to 1945 when the mortgage was paid. So that is why we challenge paragraph 48 of the Appleby report because Appleby and Butterfield produce a false chain of the deeds.
3. **Exhibit (C)** The transfer of 1,025 pounds by Eric Jones to Bank of Butterfield was a cover up and part of the corrupt scheme to justify the fraudulent piece of the said land belonging to Augustus Virgil being sold. It is mind bugling and disingenuous that Eric Jones would make this transfer some ten years later, after Barbara Brown questioned Eric Jones about the allege sale of her uncle's property after W. G Brown informed his daughter in law about the fraudulent transaction.
4. **Exhibit (D)** the signed documents 'bearing Robert Motyer's signature we submit here as evidence supports that he was the lawyer for both Augustus Virgil and John Virgil.
5. **Exhibit (E)** We still have in our possession the heart of our complaint which is that we still have the original deeds of 1885 to 1945 when the mortgage was paid after several re-conveyances throughout the years.
6. **Exhibit (F)** Please see the Bermuda Caribbean Engineering Consultant Ltd Report in its entirety.
7. **Exhibit (G)** the deeds and testamentary instruments produced to the Bermuda Caribbean Engineering were the original 1885 deeds. Moreover, please take note of David Summers conclusion in the Bermuda Caribbean Engineering Consultant Ltd Report.
