No 14

27th February, 1990

Her Majesty Queen Elizabeth II  
Buckingham Palace, London, SW 1

Dear Your Majesty,

First of all, our most respectful appreciation of ther Most Gracious Message you were pleased to honour us with upon the occasion of our Annual Dinner at the House of Commons, London, on the 27th January, 1990; your Royal Message was read out to our assembled guests and received with fervent expressions of loyalty and high and dutiful appreciation.

We venture to write to you most respectfully because we have been much troubled of late by complaints of what appears, certainly at first glance, to be serious and invidious erosion of Civil Rights in Your Majesty's Right Royal Colony of Bermuda in the matter of the conduct of Your Majesty's Judiciary in the matter of one John Nathaniel DARRELL v Your Majesty's Attorney-General, acting on behalf of Your Majesty's Government of the said Colony of Bermuda.

It is reported thus: That one of Your Majesty's Judges of the High Court of Bermuda, The Hon Mr Justice HULL, presided over the case of the Attgrney-General of Bermuda v John Nathaniel DARRELL in August, 1989, and, whatever LEGAL arguments may or may not be, advanced in good time in the Bermudan Court of Appeal or even Your Majesty's Privy Council, it is now February, 1990, and there is still no sound or sign of the delivery of the Judgment of the said Mr Justice HULL; Justice Delayed is Justice Denied, we would Most Respectfully Represent to Your Majesty, and we hope Your Majesty would not deem it unreasonable: of us to ask that such Judgment should be delivered NOW without further delay to Your Majesty's Most Loyal Subject, John Nathaniel DARRELL.

The other aspect of our deep concern is that Civil Rights (U.K.) is most anxious to be present in the High Court of Bermuda at the time and day of the delivery of said Judgment by The Hon Mr Justice HULL and we shall most certainly need some prior intimation of the occasion but it would certainly seem that such prior notice is to be denied us; thirdly, the Bermudan Court of Appeal, having first promised to deliver judgment in a related matter regarding the VERY SAME PARTIES in March, 1990, has now stated that such Judgment is to be delayed until JULY, 1990!!! Judgment Delayed is Justice Denied..... and We, Your Majesty's Most Humble and Loyal Subjects here at Civil Rights (U.K.) are most anxious and apprehensive as to "the reasons for this most extraordinary and seemingly well-orchestrated delay by Your Majesty's Judiciary in what William Shakespeare called "the vexed Bermoothes".....it would appear that "the Bermoothes is still very vexed indeed with litigants of the ilk of John Nathaniel Darrell!!

It would also appear most timely to us to refer Your Majesty to what we found upon visiting Bermuda last year, the very Colony in which Your Majesty's Governor was once shot some years ago and where very many black people believe that the wrong men were convicted. There is absolutely no doubt that there is, active, alive and seething just below the cosmetic surface of Bermudan politics, a potentially wild, resentful, seething rage by very many black families that they have had their land stolen most blatantly by the WHITES and that the legal profession and Your MAJESTY'S Judiciary in Bermuda are distinguished only by their connivance and condonation of such large-scale LAND-STEALING and Your Most Loyal BLACK Subjects believe, rightly or wrongly, that Your Majesty's Judiciary will pile delay upon delay in the Black Bermudan's Quest for Justice since this accords

*with the Unspoken and Unwritten and Silent but Wellknown Conspiracy to preserve the White Man's Larceny of Black Peoples Land in Bermuda.*

*To this extent, therefore, I would respectfully invite Your Majesty's Right Royal Consideratiann to the reasons, real or Imaginary, as to why the Bermudan Judiciary is seemingly deliberately delaying Judgment in a case which could affect the jurisprudential Fortunes of Your Majesty's Black Subjects.*

*Your Majesty's Humble and Obedient and Loyal Subject,*
