

TUCKER'S POINT CLUB

BERMUDA

April 14, 2009

Mr. Craig Tucker
Chairman, Marsden Trustees Board

Dear Mr. Tucker,

It was a pleasure to meet with you and the representatives from the Marsden Methodist Church ("Church") last week, at which time we reviewed your memo outlining certain maintenance issues related to the graveyard and the perception among some people that the graveyard was being desecrated because of its proximity to the Tucker's Point driving range.

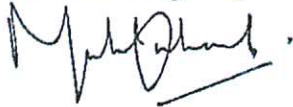

The following represents our response to the matters raised in the meeting and the actions we are committed to undertake:

- 1) Move the driving range: We noted there was no land available at Tucker's Point to move the driving range, and the suggestion to close the driving range is not a practical alternative given the nature of the hotel and resort operation.
- 2) Better protection of the graveyard: We discussed various methods to prevent golf balls from entering the graveyard. Tucker's Point has agreed to consider a number of alternatives, including additional netting. We have this week commissioned an architect to design a net structure to fully protect the graveyard, and will be pleased to present our plans to the Church as soon as the design has been completed.
- 3) Replace the Plaque: TPC agreed to replace the existing marble plaque and has suggested a bronze plaque.
- 4) Repair damaged walls: The walls had been repaired prior to the meeting, and Tucker's Point has undertaken to maintain the walls in the future.
- 5) Repair damaged gate: This repair was completed prior to the meeting.

We hope that Tucker's Point's undertaking to maintain and respect the heritage of the graveyard will alleviate your concerns.

It is with regret and concern that we report that this week an individual without permission from Tucker's Point and we understand without permission from the Church, has painted the tombstones and gravestones. While undoubtedly well intended, this action represents an unacceptable trespass and violation of private property.

With kind regards,
