Dear Sirs,

**Re: Frederick Leonard Hendrickson Snr**

We have been consulted by the son and other relatives of the above-named who we understand was recently admitted to your facility. We understand that access has been denied to him by our clients. We understand that Carol-Ann L Furbert purports to give instructions pursuant to a Power of Attorney. Please be advised that this Power of Attorney is being contested by the family and steps will be taken to have this appointment revoked. Our clients are also concerned that the best interests of the above-named are not being catered for and our clients not only insist that they be allowed access to their father but there is full disclosure of his physical and mental condition and the attending doctor and physician also be made available to our clients to explain his current diagnosis and ongoing treatment.

Please respond by return.

Yours faithfully
